

Hoang Pham

Crypto-native operator-designer focused on workflows, creative ops, and internal tools for high-context teams

hello@hoangpham.design hoangpham.design

Available for select projects

EXECUTIVE SUMMARY

9 years across visual systems, crypto-native environments, and fast-moving execution. Strongest at turning dense context into clearer outputs, repeatable workflows, and practical internal systems that help teams move with less friction.

CORE EXPERIENCE

Independent Operator / Designer / Builder

2025 - PRESENT

SELF-DIRECTED / HIGH-CONTEXT FREELANCE

- Worked as a strategic design partner for Drift Protocol, focusing on interface clarity and operator-facing workflow support.
- Developing AI-assisted workflows, internal tooling directions, and structured research surfaces to reduce friction in dense information environments.

WORKFLOW OPS

INTERFACE CLARITY

AI SYSTEMS

STRENGTHS

CRYPTO CONTEXT

Comfortable inside DeFi and crypto-native environments where context is dense, fast-moving, and operationally messy.

SYSTEMS THINKING

Building modular, repeatable structures that improve speed, consistency, and team execution.

OPERATOR LENS

Working backward from what teams actually need to see, decide, and ship under pressure.

NETWORK

PORTFOLIO

hoangpham.design

Multimedia Marketing Designer 2024 - 2025

FACTOR / DEFI INFRASTRUCTURE

- Built modular visual frameworks that scaled across brand, campaign, and product surfaces with consistent execution.
- Reduced creative turnaround time by 40% through repeatable design workflows and asset libraries.

SYSTEM DESIGN

VISUAL OPS

DEFI CONTEXT

CASEFILES

Selected work context available on the portfolio.

Multimedia Marketing Designer 2022 - 2024

KYBER NETWORK / DEFI ECOSYSTEM

- Translated high-complexity DeFi mechanics into accessible visual narratives for a global crypto-native audience.

CRYPTO NATIVE

EDUCATION

VISUAL COMM

PRIOR EXPERIENCE

Senior Graphic Designer

2019 - 2022

CREATIVE AGENCY CONTEXT

Led visual identity work for tech-focused clients while building the discipline around systems, repeatability, and cross-channel execution.

Visual Designer

2016 - 2019

IN-HOUSE CREATIVE TEAM

Executed high-volume creative assets under brand constraints and improved internal workflows to make production more reliable for marketing teams.

SELECTED PROOF BLOCKS

Protocol Systems Work

Built modular visual systems for DeFi teams so campaign, brand, and product surfaces could stay coherent under speed.

Workflow Leverage

Explored automation, templates, and tooling that cut repetitive production work and made execution easier to scale.
